As a high school student, you can receive free college credit for high school and technical courses through a partnership between your local school district and Florida Gateway College. You can apply these credits to college certificates and Associate in Science degrees.

It's Free. You pay no additional tuition for courses or credits you receive through the partnership.

When you enroll at FGC as a degree-seeking student, you should work with your school counselor to fill out a Career Pathways Articulated Credit form. Turn in the form at the high school coordination center at FGC. Credits counting toward your degree will be added to your transcript, and you're that much closer to going further, faster!
