«GreetingLine»

Congratulations, I am pleased to inform you that you have been accepted for admission to Florida Gateway College for the «TERM» semester. Your personal student identification number is: «ID».

Transfer students, while admitted, may not register for courses and/or be awarded financial aid until *official transcripts* from **each** previously attended postsecondary institution has been received at FGC and evaluated by Registrar's Office staff.

Students who are admitted after the initial start of the semester (based upon receipt of all admission requirements after the admission application deadline) are encouraged to consider min-mester course offerings which begin later within the semester. Please reference the class schedule and/or speak with your advisor regarding this option.

Please note that admission to the college does not imply nor guarantee acceptance into any program with special admission requirements, i.e., limited access programs, baccalaureate level programs, etc. Please reference the college catalog at www.fgc.edu and/or speak with an academic advisor to determine if your program of interest has special admission requirements, including the requirement of a supplemental application with corresponding deadlines which may be necessary for *program admission*.

Admission to the college does not signify that you have met or will meet requirements for professional licensure or certification. If completion of your educational plan involves professional licensure or certification you are encouraged to obtain information relative to the qualifications for licensure/certification *prior* to beginning the program of study.

While the educational plan you wish to pursue may not require high school completion, graduation from a recognized high school (includes home school completion in accordance with respective state statutes and/or successful completion of a recognized high school equivalency exam, i.e., GED®) is required for the award and disbursement of financial aid. Please contact the FGC Financial Aid Office if you have questions regarding this requirement (386-754-4282).

Please find enclosed two very important documents: 1) "**Steps Following Admission**" and 2) "**Notification to Student**" which provides you with *very important* information critical to your success as a student at Florida Gateway College. Please read the attached documents carefully while maintaining the **Notification** in a safe and secure place for future reference.

We are excited that you have chosen to pursue your education at Florida Gateway College. Best wishes to you in your academic endeavors.

Sincerely,

Sandra R. Johnston
Director of Enrollment Management
